Type of Comment	Objection
Comments	- The visual impact will negatively affect the South Downs National Park, Scheduled Ancient Monuments, Grade 1 listed buildings & SSSIs - An incinerator of this size risks the deliverability of one of ADC's key strategic sites for a new settlement of a primary & secondary school with village centre & 1,500 houses, that was supported by a local referendum - West Sussex already has enough incineration sites with permission to meet its needs - Incineration is a barrier to recycling - Incineration is one of the worst ways of generating energy because of its effect on climate change - emissions include dioxins, NOx & ultra-fine particulate matter that can be harmful to both human health & the natural environment - Local roads cannot cope with the size & weight of the HGV moments being proposed
