Type of Comment	Objection
Comments	VISUAL IMPACT The visual impact of the 13 story high building and two 28 story towers will affect the South Downs National Park, Schedule Ancient Monuments, Grade 1 listed buildings and SSSIs. NEW HOUSES OR INCINERATOR - NOT COMPATIBLE An incinerator of this size risks the deliverability of ADC's key strategic sites for a new settlement of a Primary and Secondary school with village centre and 1,500 houses which was supported at a local referendum. NO LOCAL NEED West Sussex already has enough incineration sites with permission to meet its needs. Incineration is a barrier to the circular economy (recycling). NOT GREEN ENERGY - HARMS AIR QUALITY Incineration is one of the worst ways of generating nenergy because of nits effect on CLIMATE CHANGE. Emissions include dioxins,NOx and ultrafine particulate matter that can be harmful to both human health and the natural environment. BIG LORRIES ON LOCAL ROADS The local roads cannot cope with the size and weigt of the HGV movements being proposed. OUT OF CHARACTER and will blight the whole of the Arun Valley. RISK TO ENVIRNMENT AND HEALTH OF SURROUNDING COMMUNITY Not enough monitoring Not enough enforcement Not enough transparency
