My name is Jan Sheward residing at Millfield House Station Road Angmering BN16 4HY.

I am writing in support of the revised application reference number above.

Grundon is a trustworthy British Company that has been in operation and successfully run by the same family for over 90 years. They are committed to protecting the local and global environment through responsible and effective management, minimising any negative impact and maximising opportunities to enhance the local environment in which they operate. They comply with all relevant legislation, guidance and best practices to ensure they minimise the impact on the environment and conserve natural resources. Our waste needs to be handled by a responsible waste management company that we can trust especially bearing in mind the huge volume of houses that are planned to be built in the surrounding area which will benefit from Grundon services.

Grundon are committed to the continuing support of the local community and of Cancer United for which we are so grateful.

This application has my unreserved support.

Jan Sheward
