Comment for planning application WSCC/028/21

Application number	WSCC/028/21	
Name	Abigail Illes	
Address	The smithy OLD LONDON ROAD, PULBOROUGH, RH20 3BN	
Type of Comment	Objection	
Comments	We are very against this planning application of a landfill and a processing/ recycling plant. This will have a massive negative impact on our lives & everyone else around us. We have lived in Washington for only over a year and if this went forward we may regret moving here. This will have a massive impact on the traffic that is already so bad. The dust pollution will be so bad and will just worsen with time . The risk of polluting drinking water is so dangerous and just not acceptable. We really hope this does not go ahead.
