Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Gillian Perry
Address	MILL DRIVE, 12, MILL DRIVE, HENFIELD, BN5 9RY
Type of Comment	Objection
Comments	I am concerned about the impact of burning on air quality and on carbon emissions. The incinerator at Peacehaven has had some issues and I would prefer to see rubbish dealt with though other means. WSCC could be supporting efforts to have deposit return schemes on packaging for example. However, I recognise that waste is a huge problem and would want to support efforts to prevent some of it being shipped overseas to be treated. Burning it, with dubious consequences for health and breathability if the air may not be the best solution long term, and we definitely need to think for the long term, keeping investments for the greenest solutions and bearing in mind technological improvements that could be made to reduce waste.
