## Comment for planning application WSCC/021/23

Application number	WSCC/021/23		
Name	Alex van Koolbergen		
Address	2 BABSHAM COTTAGES, BABSHAM LANE, BABSHAM LANE, BOGNOR REGIS, PO21 5EL		
Type of Comment	Objection		
Comments	waste of 75,000 tonnes wil 2014 when planning was g Therefore already choosing surrounding areas. The company have not plan until such time as retrospe screening of this site is inar A wheel wash was cited in not to instal such a facility latest retrospective plannin being a planning condition A water cannon is viewed f dust everywhere surroundi believe that this company's I do understand that this b homes and local businesses This retrospective planning somewhere more appropria	ose to apply for a permit from the EA in December 2014 to operate a throughput of connes willingly knowing that WSCC had set a ceiling of 30,000 tonnes in September ing was granted. The choosing to ignore planning conditions set to protect the local amenity and set to planted out its perimeter as set out in the originally planning but has waited a retrospective planning is necessary and compulsory to continue its operations. The site is inadequate and can be seen from many neighbouring properties. Is cited in the original planning but again this was ignored by the company who chose a facility which would have given some way of improvement to the local area. The ve planning application also states that a wheel wash will be in situ but without this condition I fear will not be placed and/or used. Is viewed from the rear of my home yet I await to see it in operation. All I do see is surrounding my local area. My allergies have become worse overtime and I do company's daily business attributes a lot to this. hat this business is required within West Sussex but having it placed so close to businesses is a total fail on behalf of WSCC.
