

Comment for planning application WSCC/028/21

Application number	<input type="text" value="WSCC/028/21"/>
Name	<input type="text" value="Alison Milner-Gulland"/>
Address	<input type="text" value="Tilleys Cottage Washington"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<input type="text" value="Re. traffic...the A24 anf A283 are heavy with traffic already, but the extra lorries entering the site will cause more accidents. There are buzzards and even kites in the trees Canada geese in the water, which is also providing a habitat for newts. A detailed survey by a qualified conservationist must be taken. The aquifer leading to Honeybridge stream will become polluted and affect a wide area. Traffic, noise and fumes will affect Washington village and surrounding area. A283 and A24 have become heavy with traffic and the extra lorries will make them even more dangerous
The rural village will be totally changed."/>
