Comment for planning application WSCC/028/21

Application number	WSCC/028/21	
Name	Andrew Fuller	
Address	10, STOCKS MEAD, WASHINGTON, PULBOROUGH, RH20 4AU	
Type of Comment	Objection	
Comments	I object to this planning application as I believe it will have a very negative effect on the surroundings. I have major concerns about the estimate of an extra 300 two way trips by trucks bringing in materials. This is on top of trucks taking away sand extracted from the quarry as this continuance, I note, is part of this application. That is an extraordinary increase on current HGV movements along the A283 and A24 both of which are very busy and and will become even more dangerous, especially at junctions, and will contribute higher levels of diesel exhaust gases. The plan to build a processing plant will produce more noise and dust. The natural habitat in the large quarry will be destroyed with obvious loss of wildlife and flora. I do not trust the estimates of the working life of the landfill and believe that these negative effects will be ongoing for more than 8-10 years estimate. There does not seem to be any external monitoring built into the plan to prevent abuse of the proposals either in the short or long term.
