Ben Drake

Objection

RED HOUSE, CUCKFIELD ROAD, CUCKFIELD ROAD, HAYWARDS HEATH, RH17 6ET

Type of Comment Comments

There has been no consultation with the community other than a standard planning application, a project of this scale in a designated Area of Outstanding Beauty should have community involvement

prior to determination.

This is a prototype project with no data to support the environmental claims in the application and fails to mention that the existing plant has the potential to be upgraded to achieve the same result for generations to come.

Should the completed project become unstable it would involve using tankers to transport waste to the facility a Goddards Green, the phrase springs to mind that it would involve "pushing s**t uphill" Whilst I would wholeheartedly support a more environmental solution this proposal does not fulfil this and I request that the application is denied and that the applicant engages with the community in a transparent way and reconsiders it plans.
