Comment for planning application WSCC/028/21

Application number	WSCC/028/21
Name	Beryl Pulham
Address	5, FRANKLAND MEAD, PULBOROUGH, RH20 4BD
Type of Comment	Objection
Comments	In 2006/2007 an application to use the Rock Common Quarry as a landfill resulted in a very comprehensive report, the content of which led to the Council making the decision to refuse the application. There seems to be very little significant difference between this application and that one. The issues of pollution of the Aquifers, destruction of habitat, traffic congestion, air and noise pollution from the proposed inert waste disposal etc all remain. I therefore oppose this application
