Support

We have used Recycle Southern for many years now and they are one of a few indispensable services that we need in order to operate efficiently and be able to serve our customers. We have always found Recycle Southern to be a considerate, helpful local company that we should be supporting and help develop. Without growth and development there can only be regression and collapse. That's why we should be helping local companies to expand, extend, enhance and increase their business - not put unwarranted hurdles in their way. As long as provisions are made to ensure that the local environment is not adversely affected, then we should be supporting this application, not apprehending it.
