Comments	I wish to object most strongly to the proposed landfill application at the Rock Common Quarry. This will have an extremely detrimental effect on this area in many ways. For example:  1. Significant additional heavy traffic flow in an already busy and polluted area, for many years to come.  2. The risk of polluting the aquifer that runs underneath the quarry and supplies drinking water to the South Coast.  3. Negative impact on this beautiful area that adjoins the South Downs National Park. The quarry should be restored in a sympathetic way to protect the environment and the wildlife that lives within it.  Thanks	
	Regards	
	Chris Norton
