

Comment for planning application WSCC/028/21

Application number	<input type="text" value="WSCC/028/21"/>
Name	<input type="text" value="Clare Jenkins"/>
Address	<input type="text" value="CHANCTONBURY CLOSE, 3, CHANCTONBURY CLOSE, PULBOROUGH, RH20 4AR"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I am very concerned about the type of material that is to be deposited on the proposed location. The application should explain what constitutes 'treating imported material' which may have a detrimental effect on an outstanding area of natural beauty.</p> <p>I would also say that the A283 is becoming ever-more dangerous with it's winding roads which has been demonstrated recently by the lorry derailing off the A283 near Wiston. This has caused extensive environmental damage to the surrounding area which demonstrates that, with increased heavy vehicle traffic, this brings increased risks and making things worse to both safety and the environment.</p> <p>No matter where the entrance and exit is for the proposed importation of inert material, the A283 will have increased traffic, which includes that of many daily school buses, as a result of these proposals. Please take these points into consideration when making your decision.</p>
