

Dear Chris

Thank you for clarifying various points regarding this planning application in our discussion earlier.

I am concerned that access to the site is via the old London Round off the roundabout by the service station. This road is narrow and a number of cars regularly park along the road leading up to the service station and the site beyond. I would like to place on record that this access is, in my opinion, totally unsuitable and will cause unnecessary upheaval whilst having a severe impact on residents in the area.

I had originally assumed that the access would be directly off the A24 onto the drive that leads to Hooklands and as such would have no objection to the development if this was the case, but I cannot give it my support with the plan as it is currently presented.

Yours sincerely

Amanda
