| Comments | <input type="text" value="I wholeheartedly object to this proposal on a number of grounds. This said, my prime reasons for objecting are firstly on the basis that, as stated in the applicant's application, that this would bring an extra very significant number (up to 500) of daily traffic movements (and heavy goods traffic movements at that) to an already congested location. Secondly, and in particular as I am an Ex Life Sciences Graduate who majored in Ecology and whose actual thesis was on the effects of Water Pollution on natural aquifers, I am very concerned about leaching that could well occur into the natural and very local water courses, from the material being disposed of under the planned landfill aspect of this proposal."/> |
