Comments	<p>Having spent many happy holidays at the Washington Camp Site which is unspoiled and very peaceful , to allow this proposed planning of Rock Common Quarry to go ahead, would ruin the whole ethos of the camp site!</p> <p>People like myself wish to enjoy the quiet countryside and not have to endure the constant noise and dust from work being carried out for redevelopment at Rock Common Quarry.</p> <p>This work in turn, would seriously impact on the livelihood of the owners of Washington Camp site and be totally detrimental to their business.</p>
