

Comment for planning application WSCC/028/21

Application number	<input type="text" value="WSCC/028/21"/>
Name	<input type="text" value="Elaine Kipp"/>
Address	<input type="text" value="1 Laurel Mount Moat Lane Pulborough"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>This will have a detrimental effect on the environment. The number of HGVs involved, the local wildlife as well as the pollution. Our roads are under significant strain now. The volume of traffic has significantly increased in the Washington/Storrington area in recent years. This will undoubtedly make it worse. I thought West Sussex County Council's aim was to lower pollution not increase it. (West Sussex Transport Plan)</p> <p>The consultation period is during the peak holiday time. Why? Could it be due to the fact West Sussex County Council knew there would be numerous objections if the consultation period was delayed until September?</p>
