**\*\*EXTERNAL\*\***

I am a resident of Staplefield and I strongly object to the new Wetland plan. This is an unnecessary development which will cause extensive damage to the wildlife and habitats in this area, including crested newts, bats, 3 species of owls skylarks grass snakes amongst a rich and diverse range of wildlife.

This will change the character of the landscape on the edge of the village forever if it goes through and it is not necessary.

Why is there no consideration for the current pumping station to be upgraded to achieve the new water quality regulations? This would avoid any change to the landscape and not destroy wildlife.

Regards,

Zoe Carlisle,  
Willow House, Handcross Road,  
Staplefield, RH17 6EJ
