Comments	<input type="text" value="I am writing to Object to the above planning for the following reasons - I suffer from asthma and the increase of lorry movement will increase the dust and general pollution in the area - Storrington Road is already one of the most polluted roads in the UK. There will be an increase in traffic generation with even more cars/lorries using the Village as a cut through again increasing traffic fumes and a highway safety issue for our children. There is a risk of polluting the aquifer that runs underneath the quarry and supplies fresh water to our homes. There will be a massive negative impact on the natural environment - trees, hedgerows, animals and their habitat, all our established wildlife. I believe all the above will have a huge detrimental affect on the quality of life to my family, all those that live in Washington Village and the wider area and this is something I am NOT prepared to accept."/>
