Thank you for consulting the Environment Agency on the above application.

Environment Agency position

The Environment Agency does not object to this proposal enabling the site restoration to be completed in accordance with the approved restoration scheme.

The Brookhurst Wood Landfills site has an environmental permit which is issued under the Environmental Permitting (England and Wales) Regulations 2016, Regulation 12. The environmental permit sets out controls for the management of pollutants from the landfilled waste and includes controls on the suitability of the material used for the restoration of the landfill. The proposed extension is consistent with the current environmental permit.

Please do not hesitate to contact me using the contact details shown below should you have any queries regarding the above information.

Yours faithfully
