EXTERNAL

Morning James,

I can agree to an extension of time until 13th October.

I will provide you with an update this week.

Should I informally consult the LLFA with our proposed approach to addressing their comments or would you prefer to do that? Please see attached. Just trying to get agreement with the LLFA on a few points. This is not a formal submission in terms of addressing the issues as the FRA will be updated appropriately when we have a response from the LLFA.

Thanks,

Kind regards,

Christian Smith MRTPI MCMi fCMgr

Christian,

These clarifications have been added to the planning file (and made available online). I have also forwarded them to the EHO at Arun for further comment. I will advise as appropriate in due course should further matters arise regarding noise.

Please can I have an update as to when the other information/clarifications as sought below will be provided?

Further, to enable consideration of any information received and drafting of reports/recommendations and consideration by the planning and rights of way committee, at this stage I would request the applicant agree to an extension to the determination date until **13th October 2023** – please confirm this is acceptable.

I look forward to hearing from you.

Regards,

James Neave
