Subject: Rock Common Quarry Washington. Planning application request for an extension of time.
Date: 02 August 2021 16:05:00

Dear Sirs

As acting chairman of GLAG 3 Chanctonbury Landfill Action Group, we formally request a 3 month extension of time regarding this application for the following reasons:-

- 1 The sheer scale and magnitude of this application does not give sufficient time for all Stakeholders; Businesses; Partners and residents to fully digest and understand the information submitted, and its subsequent impact to the general area and the Environment.
- 2 To consult with specialists regarding this application.
- 3 A systematic failure on WSCC web site. Objections are not being registered and acknowledge by the system, we have received numerous complaints.
- 4 A lack of response from the planning dept officials - this is probably Covid related.
- 5 The fact that the general public have been barred / limited from speaking at the Parish council meeting is totally unacceptable. An Extra ordinary meeting needs to be called over this application in the main hall for full public attendance..
- 5 The on going impact of COVID.

As this is a formal request, we would appreciate your acknowledgement by return and confirmation within 7 days.

kind regards

Russ Fowler
