Comments	<input type="text" value="I work close to the quarry on the business park. We should be seeking to protect the environment of this beautiful area not contaminate it with landfill. Not only will the site itself damage the local area (raising pollution, causing harm to the local flora and fauna, impact negatively on the quality of life of all close by) but the additional road traffic will add to all of this and cause road safety issues as well! There must be a way of restoring the quarry that is more sympathetic to the area and enhances the environment rather than destroying it."/>
