Good morning . I am writing again and I think that my message will be taken into consideration again. I would like you to disagree with Yes because the biggest problem is the dust. Dust gets everywhere even inside the house where I live with my family. It is very inconvenient and dangerous for the health of my children in particular. Dust even gets into the bathroom and it's everywhere, even on toothbrushes, on hair shampoos, there's just dust everywhere. I am also asking you to do something about it because it is really dangerous for my children's health, and I think health and life is the most important thing. One more time, please.
