Hi. I send you a picture a year ago and now I also want to show you that nothing has changed in this direction and I mean the dust, which is really very tiring for us. My children can't play normally in the garden, I can't sit down after work in the garden either because there is dust everywhere. It is already very burdensome and we no longer have the strength to just clean and clean, this dust is leaking everywhere, even inside the house to my children's room. So please do something about it. I will keep posting until something is done about it.
