REF PLANNING APPLICATION N° WSEC/028/21

Dear Sir,

AS A RESIDENT OF WASHINGTON VILLAGE W.SX I AM VERY CONCERNED ABOUT THE NEW PLANNING APP. FOR REFILLING THE ROCK COMMON QUARRY. THE APP STATES IT IS TO BE INERT WASTE, THIS IN ITSELF WOULD BE VERY DIFFICULT IF NOT IMPOSSIBLE TO GUARANTEE. THE QUARRY HAS A NATURAL AQUIFER WHICH COULD BE CONTAMINATED SO EASILY DESTROYING A VERY VALUABLE SOURCE OF WATER FOR EVER.

2) THE NUMBER OF LORRY MOVEMENTS INVOLVED TO CARRY OUT THIS OPERATION, (FOR AN ESTIMATED 10 YEARS)

P.T.O.

WOULD BE HORRENDOUS AS THE ROADS SURROUNDING WASHINGTON VILLAGE, ARE ALREADY AT FULL CAPACITY, CAUSING TRAFFIC JAMS NUMEROUS TIMES A DAY ALREADY. I CANNOT SEE THAT THE TRANSPORT DEPARTMENT CAN NOT SEE THIS IS GOING TO BE A MASSIVE PROBLEM. STORRINGTON IS ONE OF THE MOST AIR POLLUTED PLACES IN THE COUNTRY AND YOU ARE GOING TO ALLOW HUNDREDS OF DIESEL LORRIES TO PASS THROUGH, CAUSING MORE POLLUTION AND MISERY.

3 THE NOISE DUST AND SMELL FROM THE LANDFILL, SIX DAYS A WEEK, DISTURBING WILD LIFE IN THE QUARRY SAND MARTINS CRESTED NEWTS PEREGRINE FALCONS NOW NESTING ETC AND NOT FORGETTING THE LOCAL CAMP SITE.

THIS PROPOSED LANDFILL WILL AFFECT.

ALL OF WASHINGTON VILLAGE.  
I STRONGLY OBJECT.  
WE LIVE IN A BEAUTIFUL  
NATURAL VILLAGE PART OF THE  
SOUTH DOWNS NATIONAL PARK  
AND I CANNOT BELIEVE YOU  
ARE PREPARED TO ALLOW THIS TO  
GO AHEAD.

REGARDS
