Comment for planning application WSCC/028/21

Application number	WSCC/028/21	
Name	Janet Ellis	
Address	PEGASUS, STOCKS MEAD, STOCKS MEAD, PULBOROUGH, RH20 4AU	
Type of Comment	Objection	
Comments	I believe this application should be refused due to the impact it will have on the local area. The increase in traffic, especially as it will be large tipper lorries, will increase the pollution to an area which already has a traffic pollution problem. Noise pollution will also be an issue. There will also be an impact on the natural environment, including wildlife and their habitat and on trees and hedgerows. At a time when the environment should be top of the agenda for everyone, big businesses should not be allowed to ruin part of an area of outstanding natural beauty purely for their own financial gain. Please consider the detrimental effect this will have on those of us who live in this area and refuse this application.
