Comments	<input type="text" value="I strongly object to this proposal on environmental, visual, traffic and wildlife protection grounds all of which will have a massive detrimental effect on the quality of life for Washington and the wider area. Not only is there an increased risk of polluting the aquifer that runs underneath the quarry, but the combined ill effects of noise, dust, increased traffic movements and fumes on already overloaded roads make this proposed use wholly unsuitable for this beautiful and historic area. Unsuitable development of this nature threatens wildlife, the landscape and the natural world which locally is already under severe pressure from ever increasing population, traffic and development. For all of the above reasons I strongly recommend that the Council refuse consent for this wholly inappropriate development proposal."/>
