Comment for planning application WSCC/021/23

Application number	WSCC/021/23

Type of Comment	Objection
Comments	Planners - please take note. This is retrospective. This company has already expanded and laughed in the face of any enforcement. This company show no regard for the local amenity. They claim to 'involve the local community' and then ignore us when we make contact. I have had enough of the dust which is in the air all the time. I can't dry washing outside. I only allow my children to play outside when the company are not in operation (1/2 day Saturday and all day Sunday). I moved here from London to give my children a better way of life. Sadly WSCC gave this company the go ahead to have a facility that is not fit for purpose where it is
