

Comment for planning application WSCC/028/21

Application number	<input type="text" value="WSCC/028/21"/>
Name	<input type="text" value="Kim Cowan"/>
Address	<input type="text" value="East Sussex"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>Objection to planning proposal for Rock Common Quarry, RH20 3DA WSCC/028/21</p> <p>As a regular visitor to "Washcamp", the Washington Caravan and Camping Park, I was saddened to learn about the planning proposal that would have a significant detrimental effect on the viability of the campsite.</p> <p>After reviewing other objections, the case against granting permission has been well articulated so I do not propose to reiterate those comments. I fully endorse those objections but also feel it is inappropriate to destroy the livelihood of a young family with children who are striving to improve the facility for the wider community.</p> <p>I could describe the quality and peacefulness of the location but would suggest that councillors visit the campsite at a busy time to see how well run it is, providing much needed affordable facilities for families and individuals to stay, enjoy the countryside and visit West Sussex attractions.</p> <p>Following Covid there has been a dramatic increase in camping, caravanning and staycations. More people are exploring the great outdoors, so if approved this would remove yet another facility, the jobs it creates and money it brings to the local economy.</p>
