Comments	The section of Chichester Road is already in a horrible state, even where it does not need resurfacing, it is always dirty, muddy and has big chunks of hardcore dropped over it which are never picked up. There are already too many heavy vehicles using Elbridge Farm and the space available is not fit for the purpose of the recycle lorries and skip grabbers but the biggest concern is the concrete dust. Being so close to a residential area, this is putting many healthy people at risk of lung damage, not to mention if they already have raspatory problems like asthma. I feel there too many risks to the people living in the area, the workers within the company and the people driving through every day for this application to be supported.
