Type of Comment	<input type="text" value="Objection"/>
Comments	<input type="text" value="I object to the proposed landfill/recycling plant due to the following issues:
Traffic generation, massive increases in traffic will cause disruption and pose huge safety risks to local residents who walk and cycle nearby.
Pollution of the area is an undeniable side effect of this proposed development and the risk to the local waterways is unacceptable, even potentially polluting the local drinking water.
The proposed development in this area poses horrific consequences for the local wildlife and is utterly incompatible with any kind of green or environmental agenda which the County Council may purport to support.
I object to this proposed development in the strongest possible terms."/>
