Comments	I object to this application as I am very concerned about the impact on traffic. The proposed entrance/exit on the A283 is a very dangerous blind corner and trucks turning in from the east in particular would pose great risks to oncoming traffic. The transport statement referred to only 4 accidents at this junction however there have been over 40 recorded in that section of road over the last 20 years (can easily be evidenced using the same website as in the statement). There are dangerous corners on both approaches to this junction as well as the actual junction itself being hazardous without the added danger of 500 enormous trucks each day! What is to stop these trucks using Washington village as a short cut/rat run to the southbound A24 as so many other drivers do - racing along Washington Bostal? This will make this road even more unusable for me and my children and the many residents who walk along it. The Washington roundabout is already overloaded with traffic and this will have a huge impact on the daily traffic jams. The A283 is also a very busy single carriageway road and frequently used by cyclists and slow moving vehicles such as tractors. The addition of these trucks will no doubt cause long delays. I am also concerned about the pollution and dust 500 trucks a day for next 8-10 years will cause and
