Comments	I wish to object to the planning for this pilot project of wetland on Cuckfield Road, Staplefield. The local residents have had very little time from when we received the letters through our door less than a month ago to understand the implications of this untested project. There are valid concerns to the natural habitats of local wildlife, the change to the landscape and the disruption caused by the heavy machinery and extra materials needed to construct this. There has been inadequate consolation with local residents to explain the benefits and indeed the reasoning why money is being invested in this new project while there are numerous leaks and problems with the water supply and wastewater management in the local area already which need fixing as a priority.
	Please put a halt to this application until proper and thorough consultation has been completed,

allowing everyone affected in the village and beyond to fully understand the project and make an
