

Comment for planning application WSCC/028/21

Application number	<input type="text" value="WSCC/028/21"/>
Name	<input type="text" value="Melissa Williams"/>
Address	<input type="text" value="CRANBROOK, STORRINGTON ROAD, STORRINGTON ROAD, PULBOROUGH, RH20 3ED"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I am objecting to this proposal on the grounds of having lived near to another local landfill site. I know only too well how one's life is blighted by the malodorous stench emanating from a landfill location. In addition lorries delivering their cargo from inside & outside the vicinity hurtled along our roads dropping bits of litter & waste in their wake (& this is only the start of the environmental impact). The experience so impacted our lives (including the numerous & ultimately fruitless calls to Environmental Health dept on the matter plus the countless mandatory form filling required for EH monitoring purposes), my family & I took the decision to move to this area. We feel privileged to live at the foot of the South Downs National Park. An area so beautiful you could forgive us for thinking we would not be revisiting the subject of landfill.</p> <p>The West Sussex County Council & it's residents should feel pride in having this typography within it's county's boundaries. Locals & tourists from the UK & beyond will think it incredulous, should the proposal be supported, how we allowed a polluting landfill site directly adjacent to an area of outstanding natural beauty, which is the South Downs National Park. This objection also takes into consideration the long term future negatives of noxious fumes, compromising & polluting the local water table, it's streams & subsequent impact on our precious wildlife, bird life and insect population.</p> <p>I cannot imagine what visitors to West Sussex in the future will think, as they stand on the prehistoric hill fort of Chanctonbury Ring admiring the beauty & stench of the landfill site below. NO landfill sites should be located anywhere near this outstanding glorious countryside used by the many locals & tourists it attracts. As tourist attractions go, a landfill site just doesn't cut it!</p>
