Comments	<input type="text" value="We object to this proposal. I grew up in Washington opposite the old landfill in the 90s and the smell and rubbish (especially plastic bags) that used to blow onto the farm is ingrained in my memory. I am now raising a young family and do not want them to be exposed to this. The environment is also a key concern, we cannot have another toxic landfill in this area, as we already have thousands of tonnes buried beneath us. Our local environment has suffered enough and we still will not know the long term effects of this."/>
