Comments	<input type="text" value="I object to this proposal on a number of grounds. The additional traffic this will generate will be harmful for the environment and potentially dangerous for road users. The site could be regenerated for the benefit of local wildlife and community enjoyment rather than create more hazards and further environmental damage. The noise, and air pollution created will be detrimental to nearby residents and businesses such as the campsite. Other similar developments are planned nearby and this additional plan does not seem necessary."/>
