Consultation details: WSCC/003/24. Siting of replacement office unit (re: WSCC/044/18/SR). Sandgate Park Quarry, Water Lane, Washington, Pulborough, RH20 4AS.

Dear Sir/Madam,

According to our screening this Application falls within the Sussex North Water Supply Zone.

Please may you confirm if this proposed new office and welfare unit will have a water supply? We note that it will connected to the Mains sewer.

If it will have a water supply, a Water Neutrality Report and HRA Appropriate Assessment will be required as part of supporting documents for this Application. Please re-consult us when these documents are available.

If it does not, please confirm this by email with supporting evidence to show it will not have a water supply.

Many thanks in advance,
Hannah Lee
