Dear Mr Bartlett

REF: The continued winning and working of processing sand from the existing Rock Common Quarry

Location: Rock Common Quarry, The Hollow, Washington, Pulborough RH20 3DA

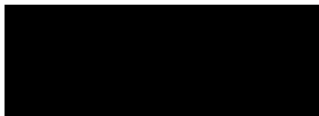

I am writing to raise my objections to the above proposed planning application.

An increase in HGV traffic going to and from the site will create more pollution, dust and noise to Ashington and the surrounding areas at a time when we are all concerned about climate change. I live with my Mother near the slip road in Ashington and it is already very busy with traffic visiting the BP garage and using the underpass to head back south towards the Washington roundabout. Another 300 plus HGV vehicles using the A24 will have a huge impact not only on us but on our local community as a whole.

I further understand that there is a risk of contamination of the water supply if this site is used as landfill

Yours sincerely

ROBERT TUGWELL
