Comments	<input type="text" value="How can this even be on the cards!! This is a beautiful area, which will have a terrible environmental impact on the surrounding areas. The Warren will suffer, the Sullington Warren will suffer, the Sand Gate Country Park will suffer. The beautiful wild life in the area will be impacted tremendously. This can't go ahead!! There are plenty of other sites along the South Coast, that can be used. The smell from the site will be smelt from all surrounding villages. This is an area of outstanding natural beauty, not a place for a land fill!!"/>
