

Comment for planning application WSCC/028/21

Application number	<input type="text" value="WSCC/028/21"/>
Name	<input type="text" value="Simon Heavens"/>
Address	<input type="text" value="4 WASHINGTON TOWERS, LONDON ROAD, LONDON ROAD, PULBOROUGH, RH20 4AJ"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>As a long term resident of 25 years, living within a few hundred metres of the proposed landfill I must object most strongly to the application. I feel that life as I know it will be irrefutably changed if this application is passed.</p> <p>I cannot imagine the effect on the wildlife of the area. This has already been gone over in much detail in the application of several years ago.</p> <p>The Village of Washington has embraced change in the past. It has accepted change when it is deemed necessary. Sometimes with objections of course. That is a natural response. But this proposal gives the Village of Washington, our village, our home, NOTHING.</p> <p>It will give us unacceptable levels of noise.</p> <p>It will give us unacceptable levels of pollution.</p> <p>It will I am sure damage the environment for decades to come.</p> <p>It will make the Washington Park Campsite a destination that visitors will think twice about coming to. This in turn will affect the Frankland Arms.</p> <p>In turn again it will affect local businesses in Steyning and Storrington.</p> <p>We should be doing our utmost to encourage our community and support our local trade. Not frighten them away with hundreds more noisy lorries making life unbearable.</p> <p>The damage to the immediate environment would be unacceptable.</p> <p>It would be interesting to know if the people who proposed this application would find it acceptable if the same thing was to happen within a few hundred metres of their own residences.</p> <p>The traffic that already uses the A283 is at crisis level.</p> <p>I am a keen cyclist and to venture onto this very dangerous road is done with the most extreme caution. Cycling to Steyning and back for some shopping, supporting the local economy, is a challenge to say the least.</p> <p>With hundreds of extra lorry journeys every day on an already very very busy road would be problematic to say the least.</p> <p>Please refuse the application.</p>
