Comments	<p>Steypning Parish Council Planning Committee on behalf of Steypning Parish Council OBJECT to the Application for the following reasons</p> <ol style="list-style-type: none"><li>1. The additional lorry movements it would impose on the A283 and the cumulative impact of increased industrial traffic resulting from the Rampion 2 Development, the proposed quarry at Ham Farm and the potential development at Glebe Fam .</li><li>2. The negative impact it would have on air quality with the associated dust and noise resulting from the increased works traffic</li><li>3. The increased road safety risks associated with the increased traffic</li><li>4. The contradiction of the current planning approval for the extraction to stop at the end of this year and for the quarry to be filled with water. The applicant states the deep water will be dangerous, although deep water is not inherently dangerous and exists quite naturally elsewhere.</li></ol>
