Comment for planning application WSCC/028/21

Application number	WSCC/028/21	
Name	Tamar Richards	
Address	CROWHURST CRESCENT, 93, CROWHURST CRESCENT, PULBOROUGH, RH20 4QU	
Type of Comment	Objection	
Comments	All the water pumped from the quarry goes into Honeybridge Stream which comes near Mill Lane. This will cause flooding, pollution (the this landfill and potential contamination from the previous household landfill adjacent) and loss of unique habitat for peregrine falcons, sand martins and great crested newts to name a few.
