

Madame,

I am sorry to email you directly but I have difficulty in accessing the 'Comment' window on line (Error!). Please copy to relevant officers.

I object to this application as a resident of Ashington, along the Billingshurst Road.

1. An amazing amount of sustained HGV traffic along already inadequate infrastructure. The old London Road is not fit for any through traffic as has been a cul de sac for about 20 years. In parts, wide enough for 1 vehicle to pass (parking, greenery, rubbish).

An area at risk of flooding.

2. The pact of sustained HGV traffic on listed buildings, close to the roundabout by the BP petrol station.

3. Is the design of the development the most efficient? Have alternative noise reduction system been explored, eg noise reducing fencing?

4. Is this a land fill exercise? Someone making money?

Yours sincerely

Tony Moss
