Thank you for the opportunity to comment on the above numbered planning application. This proposal has been considered by means of a desktop study, using the information and plans submitted with this application, in conjunction with other available WSCC map information. In respect to the above planning application I would provide the following comments.

I have reviewed the earlier submission from Nick SCOTT and also the additional documents, including the Landscape Plane and Proposed Site Layout, both dated 6th June 2024.

I can confirm that the above named public footpath runs outside the red line boundary along the northern edge of the proposed site and is unaffected by the content of these additional documents. The situation remains unchanged and we raise no objection.

I do, however, reiterate the comments made by Nick SCOTT in that at no stage can the public footpath be blocked, restricted or lawful users deterred as part of any proposals or future work. If there is a need to disturb the surface, restrict the width or temporarily close the path for the benefit of protecting public safety then contact must be made with WSCC's PRoW team prior to any works taking place.
