Water Neutrality

In respect of the continued siting and use of a temporary relocatable unit E703 on the St. John's Catholic Primary School site providing an additional teaching classbase, together with associated space for storage and circulation.

As the school is within the water neutrality zone - to advise that this should have no affect on water neutrality as the request is for the continued siting and use of this existing unit. Therefore there will be no change to the accommodation and no change to the amount of water usage.

There will also be no increase in the number of pupils using the temporary relocatable unit and therefore there will be no increase in the water usage and no additional facilities are being added.
