Type of Comment	<input type="text" value="Objection"/>
Comments	<input type="text" value="My objection is that we already have an abundance of 40 ton truck belting around our local roads
Causing noise and pollution.
Roads of which, are not suitable for that size of vehicle, anyway.
So a proposal that would bring in hundreds more to pollute further an already polluted environment is ridiculous.
This is an area of natural beauty and we should preserve that for everyone.
This proposal will blight the daily lives of thousands of people. Just for the profit of a few."/>
