

Comment for planning application WSCC/028/21

Application number	<input type="text" value="WSCC/028/21"/>
Name	<input type="text" value="sarah dowling"/>
Address	<input type="text" value="GODSTALLS LANE, 6, GODSTALLS LANE, STEYNING, BN44 3NE"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I wish to make formal I objection this application. On the basis of the agreed increase of traffic in the area relating to the extraction of sand and related materials, the road used by the lorries is already under strain due to the 14 month work on the A27. The A283 is an established Worthing bypass whose volumes you are seeking to increase even more.</p> <p>The allowance of the Ham Farm quarry after 2 objections resulting in the referral twice to the government inspectorate being undertaken. the Council have short memories when not more than 5 years ago sign posts at the Washington end of A283 stated the road was one of the most dangerous in either East or West Sussex with 6 casualties in the previous few years. The signs were taken down as the applications for the new quarry at Ham Farm were submitted. AS NOTHING HAS CHANGED WHAT IS THE REASONINIG FOR ALLOWING EVEN MORE TRAFFIC.</p>
