The Local Development Division has been consulted on this application and considers archaeology, landscape and, highway safety and capacity.

There have been no specific issues identified with regard to Public Rights of Way (PROW) and highways, therefore the Local Development Division would not wish to raise an objection to the proposals.

With regard to PROW, the proposals are not deemed to affect the Footpath 554 and therefore there are no objections.

In relation to highways, the proposals provide an extension to the existing gymnasium and viewing gallery with some alterations to the internal layout of the building. It is not considered that this will bring about an increase in traffic generation.
