

WSCC/104/13

**Washington Sand Pit, Hampers Lane,
Sullington, West Sussex, RH20 4AF**

Proposal

The continuation of mineral extraction for a two year period and the importation of inert material over a five year period only, to enable the restoration of mineral working at Washington Sandpit for the long term benefit of the Sandgate Country Park

WSCC Archaeological response:

There are no archaeological implications arising from the proposed continuation of sand extraction from the base of the quarry or the importation of inert material.

Mark Taylor, Principal Archaeologist
